Can Hybrid solar inverter QOLTEC 1.5 be purchased with a lease?

Yes, the purchase is available both on credit and with an interest-free installment plan. We work with leading banks and leasing companies in Latvia, allowing you to make your purchase on convenient terms — with a minimal down payment.

Number of MPPT, pcs. DC inputs, pcs.

Driven by EU renewable energy targets, the country's National Energy and Climate Plan (NECP) aims to generate 2,747 GWh from solar by 2030—a dramatic increase from just 29 GWh in 2022. This ambition signals strong government support and creates a significant market opportunity for local module.

Market Forecast By Type (Central Inverters, String Inverters, Hybrid Inverters), By Voltage Level (Microinverters, Battery Inverters, Off grid Inverters), By Application (Residential, Industrial, Solar Farms), By End Use (Commercial, Utility Scale, Rooftop Systems), By Efficiency (High Efficiency).

PI1500 series is a pure sine wave inverter, high frequency machine solution, the product is small size, the solution is reliable and stable, the main function is to invert the DC 12VDC battery or 24VDC battery to AC 230VAC output, mainly used for emergency use Electricity, car inverter, outdoor.

With power categories ranging from 1.5 to 3.1 kW, the Fronius Galvo is perfect for households – and is especially suitable for self-consumption systems. The integrated energy management relay allows the self-consumption component to

be maximised. A host of other smart features make the Fronius.
