

# 1000kw energy storage

## Overview

---

What is the 100 MW energy storage system?

The 100 MW system is an energy storage installation that will provide critical capacity to meet local reliability needs in the area, while helping California meet its environmental goals.

What is a Megatrons 1MW battery energy storage system?

MEGATRONS 1MW Battery Energy Storage System is the ideal fit for AC coupled grid and commercial applications. Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including fire suppression.

What is a meg-1000 power system?

MEG-1000's enhance the flexibility, economy, and safety of traditional power systems and significantly improve renewable energy access. The 1MW BESS systems utilize a 280Ah LFP cell and air cooling system which offers a better price to power ratio.

What ancillary services does a meg-1000 provide?

The MEG-1000 provides the ancillary service at the front-of-the-meter such as renewable energy moving average, frequency regulation, backup, black start and demand response. MEG-1000's enhance the flexibility, economy, and safety of traditional power systems and significantly improve renewable energy access.
