

# 120kW Folding Container for Bridges

## Overview

---

What is a modular steel bridge?

ESC MODULAR STEEL BRIDGE - PANEL TYPE (BAILEY) SYSTEM Modular, portable, or prefabricated steel bridges are a critical engineering solution in modern bridge construction, known for their versatility, tailored design in hours, quick manufacturing and delivery in weeks, ease of access to site and installation, long durability and simple maintenance.

Are inkema loading bridges a good choice?

Inkema's aluminum loading bridges are ideal for logistics centers that require mobility, versatility, and easy installation. Their one-piece construction eliminates oxidation points and ensures a long service life. Featured models: PA51: Fixed folding bridge, durable and functional. PA52: Folding bridge with lateral movement.

What is ESC-HD-100 modular bridge?

ESC-HD-100 Modular Bridge or 321-Panel Type Bridge is suitable for short to medium spans or light to moderate loads. It can stand to a maximum free span length of 51 meters (167.30 feet), with a deck net width of 4 meters (13.10 feet). Being lightweight, this bridge type is guaranteed for emergency and difficult situations.
