

15kW Mobile Energy Storage Container for Southeast Asian Base Stations

Overview

What is the maximum output power of the pc15kt mobile energy storage system?

The maximum output power is 22kW. The system intelligently balances between battery and generator power. During the power surges (e.g., pump startup), the system can provide instant power support when generators need supplemental power. 9. What certifications are currently being planned for the PC15KT mobile energy storage system?

.

Can a pc15kt mobile ESS work with a diesel generator?

Yes. The PC15KT mobile ESS supports up to 6 cabinets in parallel to reach 90kW / 198kWh. It also supports battery-only parallel connection. 8. What is the maximum output power when working with a diesel generator?

.

How many cabinets can a pc15kt ESS support?

The PC15KT mobile ESS supports up to 6 cabinets in parallel to reach 90kW / 198kWh. It also supports battery-only parallel connection. 8. What is the maximum output power when working with a diesel generator?

Can it perform peak shaving with generator load sharing?

The maximum output power is 22kW.

Can pc15kt mobile C&I ESS charge with single phase 220V?

It offers plug-and-play convenience, fuel efficiency, and the ability to scale up for larger power demands. Ideal for small and medium commercial and industrial sites. Max. Power (kW) Max. Input Current (A) Max. Efficiency 1. Can PC15KT Mobile C&I ESS charge with single-phase 220V?

Can it output single phase 220V?

Yes.
