

# 1MW Off-Grid Solar Container Used in Environmental Protection Project

## Overview

---

Highjoule successfully deployed a 1MW foldable photovoltaic container off-grid system at the Madina aluminum mine camp in Guinea, providing stable and clean electricity, replacing diesel generators and significantly reducing electricity costs and maintenance complexity.

Highjoule successfully deployed a 1MW foldable photovoltaic container off-grid system at the Madina aluminum mine camp in Guinea, providing stable and clean electricity, replacing diesel generators and significantly reducing electricity costs and maintenance complexity.

PKENERGY 1MWh Battery Energy Solar System is a highly integrated, large-scale all-in-one container energy storage system. Housed within a 20ft container, it includes key components such as energy storage batteries, BMS, PCS, cooling systems, and fire protection systems. It is an ideal solution for.

Namkoo's containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary equipment in a single container or separated based upon site conditions. We provide customers with industry.

1□Multilevel protection strategy to ensure the safe and stable operation of the system. 2□The technology is mature and stable through inspection and testing by many stakeholders. 3□Multi-scenario application, flexible configuration and compatibility, adapting to various energy storage requirements.

(TANFON 2.5MW solar energy storage project in Chad) This scheme is applicable to the distribution system composed of photovoltaic, energy storage, power load and power grid (generator). Peak shaving and valley filling: by charging and storing energy at valley time and discharging energy at peak.

HITEK ENERGY's 1MW 2MWH 40FT Containerized Battery Energy Storage System (BESS) is a high-performance, all-in-one solution designed for utility-scale, commercial & industrial (C&I), and hybrid renewable energy applications. Engineered for peak shaving, load shifting, renewable integration, and grid.

The MEGATRON 1MW Battery Energy Storage System (AC Coupled) is an essential

component and a critical supporting technology for smart grid and renewable energy (wind and solar). The MEG-1000 provides the ancillary service at the front-of-the-meter such as renewable energy moving average, frequency.
