

20-foot folding container for wastewater treatment plants

Overview

Each unit is housed in a durable container, requiring minimal site preparation. A single 20-foot container can process sewage for small communities, work camps, or disaster relief zones. Pre-engineered and fully assembled, these systems arrive ready for immediate use.

Each unit is housed in a durable container, requiring minimal site preparation. A single 20-foot container can process sewage for small communities, work camps, or disaster relief zones. Pre-engineered and fully assembled, these systems arrive ready for immediate use.

KLARO Container is a flexible and mobile wastewater treatment system that can be used where a wastewater treatment system is required but there is no connection to the sewer system. KLARO containerized wastewater treatment systems score with their quality made in Germany, flexibility and.

Containerized sewage treatment systems solve these challenges by packaging advanced treatment technology inside standard shipping containers. These systems offer: Each unit is housed in a durable container, requiring minimal site preparation. A single 20-foot container can process sewage for small.

Containerized wastewater treatment plant are engineered and constructed in Germany with maximum operating reliability our priority. KLARO container is a fully biological wastewater treatment plant that operates according to the proven KLARO SBR concept. Klaro container.one systems are suitable for:.

Take the difficulty out of large-scale reverse osmosis plants with containerized water treatment systems. By choosing pre-designed, module-sized plants, fully assembled in standard 20-ft and 40-ft containers with the option for a 10-ft as well, the complexity and construction of building water.

A complete wastewater treatment solution in a standard 20ft container, for easy transportation and setup in remote work locations for mining, military, logging and research camps. With the option to connect multiple Container.One units for increased LPD flow rates your wastewater treatment system.

BioKube offers containerized wastewater treatment plants for easy setup and

relocation. This solution is ideal for remote locations such as mining camps and oil rig sites. We offer a variety of capacities that can meet your requirements. As the pre-assembled containerized wastewater treatment plant.
