Your trusted partner that specialized in solar inverters, solar controller, solar batteries, solar panels, off grid solar system. One-stop-shop for your solar energy business requirement. Zamdon engineers tailored solar energy solutions based on your actual situation, and reasonably calculated.

Highjoule delivers advanced solar and energy storage solutions in Indonesia, offering residential, commercial, and industrial systems to support sustainable energy development. The Indonesian market features vast renewable potential, driven by its tropical climate and growing energy demand. Your.

The three-phase hybrid grid inverter of Highjoule is efficient and stable, specially designed for the hybrid power grid. It can maximize the energy generated by the photovoltaic system to the load use, and support the flexible switching of grid-connected and off-grid mode. Three-Phase Hybrid.

The hybrid solar inverter intelligently prioritizes solar energy for primary usage, draws from battery storage when solar input is insufficient, and uses grid power only when necessary. By efficiently managing power from solar panels, batteries, and the utility grid, it delivers a exible, reliable.
