

40-foot photovoltaic container from Bangladesh

Overview

Bangladesh, previously a sole importer, has begun exporting photovoltaic modules, with the first consignment shipped to the United States this week in a 40-foot container.

Bangladesh, previously a sole importer, has begun exporting photovoltaic modules, with the first consignment shipped to the United States this week in a 40-foot container.

In a landmark move marking the country's entry into the global clean energy supply chain, Bangladesh has begun exporting solar modules, transitioning from a sole importer to an international supplier. Radiant Alliance Limited, a sister concern of East Coast Group, recently dispatched its first.

Bangladesh has started exporting PV modules, with Dhaka-based Radiant Alliance Ltd. shipping 64.6 MW to US-based CleanGrid Incorporation. The company produced the passivated emitter and rear cell (PERC) and tunnel oxide passivated contact (TOPCon) modules at its 600 MW factory using solar cells.

Bangladesh, previously a sole importer, has begun exporting photovoltaic modules, with the first consignment shipped to the United States this week in a 40-foot container. Dhaka-based solar module maker Radiant Alliance said it sent its first consignment to US-based CleanGrid Incorporation, which.
