

# 50kW Photovoltaic Container for Data Centers

## Overview

---

Are solar energy containers a viable energy solution?

Solar energy containers offer a reliable and sustainable energy solution with numerous advantages. Despite initial cost considerations and power limitations, their benefits outweigh the challenges. As technology continues to advance and adoption expands globally, the future of solar containers looks promising.

Can a 50kw Solar System be paired with a 100kW solar inverter?

MEGATRON 50kW to 150kW systems can be paired with 50kW to 100kW's of PV. Each BESS has either 50kW or 100kW solar inverter integrated into the containerized system. A solar combiner box is designed in to bring all the PV strings together at the correct DC voltage window.

Can solar containers be used for emergency backup power?

Emergency backup power: Showcase the usefulness of solar containers during power outages, particularly in critical facilities like hospitals, data centers, and emergency response centers. Event or construction site power banks: Emphasize the convenience and eco-friendliness of solar containers as mobile power sources for temporary setups.
