

5GWh energy storage equipment in Auckland New Zealand

Overview

Who is launching New Zealand's largest battery energy storage system?

WEL Networks and Infratec are proud to announce the launch of New Zealand's largest Battery Energy Storage System (BESS) with commissioning underway.

What is a New Zealand battery?

Energy type: Battery storing electricity generated by New Zealand's hydro, geothermal and wind power stations when there is low demand. Construction: Begun July 2024 with the battery expected to be operational by March 2026.

Why is Newpower launching off-shore storage technology?

NewPower Energy Chief Executive, Grant Smith says, "This is an exciting milestone for our NewPower business, being first to market bringing off shore storage technology to enhance local renewable generation and support our national transmission system and renewable generation market."
