

Acm uninterruptible power supply

Overview

Altronix ACM series distribute and switch power to access control systems and accessories. They convert a 115VAC, 60Hz input into eight (8) independently controlled 12VDC or 24VDC fuse protected outputs. These power outputs can be converted to dry form "C" contacts.

Altronix ACM series distribute and switch power to access control systems and accessories. They convert a 115VAC, 60Hz input into eight (8) independently controlled 12VDC or 24VDC fuse protected outputs. These power outputs can be converted to dry form "C" contacts.

Altronix ACM series distribute and switch power to access control systems and accessories. They convert a 115VAC, 60Hz input into eight (8) independently controlled 12VDC or 24VDC fuse protected outputs. These power outputs can be converted to dry form "C" contacts. Outputs are activated by an open.

Altronix 8 fused outputs power supply/access power controller converts a 115V AC 60Hz input into 8 independently controlled 12V DC or 24V DC Fail-Safe and/or Fail-Secure outputs with a total of 4 amp at 12VDC or 3 amp at 24V DC continuous supply current. Outputs are activated by an open collector.

Image shown is a representation only. Exact specifications should be obtained from the product data sheet. Tariff Status: Tariff may apply if shipping to the United States. Tariff costs are calculated and will be displayed in the shopping cart. Order XP Power ACM PLUG US (1470-3869-ND) at DigiKey.

ies distribute and switch power to access control systems and accessories. They convert a 115VAC 60Hz input into eight (8) independently controlled 12VDC or 24VDC fuse protected outputs. These power outputs can be converted to dry form "C" contacts. Outputs are activated by an open collector sink.

Power protection and management solutions from home to data center to industrial environments. 3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data centers.

controlled fused or PTC protected outputs. These power outputs can be converted

to drive form "C" contacts (ACM8 & ACM8E only). Outputs are activated by an open collector sink or normally open (NO) dry trigger input from an Access Control System, Card Reader, Keypad, Push Button, PIR, etc. The units.
