

After-sales service for 120kW photovoltaic container

Overview

Our crews and documentation get solar containers producing power in hours — ideal for urgent or remote projects. Our service includes battery commissioning, BMS setup, lifecycle testing, and remote monitoring.

Our crews and documentation get solar containers producing power in hours — ideal for urgent or remote projects. Our service includes battery commissioning, BMS setup, lifecycle testing, and remote monitoring.

At GNPS, our commitment to your solar energy system doesn't end with installation. We provide a full range of after-sales services and maintenance to ensure your system operates at peak efficiency for years to come. Our dedicated support allows you to enjoy uninterrupted, efficient, and reliable.

SolaraBox Services cover design, manufacture, deployment and lifecycle support for our solar containers. We tailor each unit to your power needs, run full factory testing, and enable fast on-site setup so systems generate power within hours. Our team provides battery management, remote monitoring.

reenergy's Warranty, Service, and Support Programs are designed to adapt to customer requirements and the specific circumstances of each project. A dedicated team of specialists supports the installation process, either on-site or remotely, performing all necessary tests, measurements, and analyses.

LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar.

Our products are qualified with CE, ROHS, ISO, SGS certification For our Global service in Thailand, Kenya, Senegal, Mozambique, will build 120 service centers all over the world. Provide Strong After-Sales Service To Countries in Africa, Latin America and Asia. Can be packed in carton box or.

Tanfong Supply: Free site survey, design, production, installation, maintenance with our sophisticated one-stop service. For the products, Each set solar power system has power on&off test 100 times per hour.Each step of production is under

strict quality control. Our products are qualified with. Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.
