With a nationwide fleet of trucks, tankers, rail-cars and barges, Safety-Kleen collects used oil from thousands of locations across the United States, Canada and Puerto Rico. Safety-Kleen protects your company from liability resulting from improper handling, recycling, and disposal of both.

Our network collects and processes more than 200 million gallons of used oil per year, making us the largest re-refiner of used oil in North America. Murphy's Oil Service expansive network can bring you best-in-class used oil collection services. We operate a closed-loop system that begins with oil.

Encore Oilfield Services offers a robust Midstream Services division, designed to meet the growing demand for a complete solutions provider in the oil and gas sector. Our comprehensive suite of services includes process servicing, equipment repair and replacement, plant turnaround and shutdown.

With safety as our No. 1 priority, Clean Harbors offers an integrated portfolio of services with a unique focus on your Refinery operations. Clean Harbors comprehensive safety programs are employee-driven with a firm management commitment to meet the Refinery industry's safety statistic.

Keep your oil, gas, refinery and petrochemical operations running reliably,

efficiently and compliantly with environmental solutions that lower your risk. What can we help you with today?

With a national footprint, a significant presence in the Gulf Coast region – and a deep understanding of. How long do oil refiners need to keep records?

Records can take the form of a log, invoice, or other shipping document and must be maintained for three years. Re-refiners, processors, transfer facilities, and burners must have secondary containment systems (e.g., oil-impervious dike, berm, or retaining wall and a floor) so that oil cannot reach the environment in the event of a leak or spill.

Where does Safety-Kleen collect used oil?

With a nationwide fleet of trucks, tankers, rail-cars and barges, Safety-Kleen collects used oil from thousands of locations across the United States, Canada and Puerto Rico. Safety-Kleen protects your company from liability resulting from improper handling, recycling, and disposal of both hazardous and non-hazardous waste.

Who is Safety-Kleen oil re-refiner?

Collecting and processing more than 200 million gallons of oil per year, Safety-Kleen is the largest re-refiner of used oil in North America. Our closed-loop system begins with oil collection from thousands of locations across the country. Our Performance Plus oils and lubricants were born out of a quest for extreme performance.

What is a re-refiner & processor?

Re-refiners and processors are facilities that blend or remove impurities from used oil so that it can be burned for energy recovery or reused. Included in this category are re-refiners who process used oil so that it can be reused in a new product such as a lubricant and recycled again and again.
