

# Andorra City Solar Street Light Manufacturer

## Overview

---

What are solar powered street lighting systems?

Our solar powered street lighting systems are ideal for a wide variety of applications, from solar road lighting to public parks and pathways. As a trusted solar street light manufacturer, we deliver robust and sustainable off-grid street lighting solutions tailored to your needs.

Why should you choose a solar street light manufacturer?

Tender-ready specs and IES/DIALux support, strict QC and certifications, fast lead times, and full after-sales. As a high-quality commercial solar street light manufacturer, we engineer solar powered street lights that deliver reliable lighting for municipal and industrial corridors.

Where can solar streetlights be used?

Ideal where panel orientation is critical, these solar streetlights suit highways, coastal roads and parking lot upgrades, offering energy saving operation and easy maintenance. Modular builds with upsized panels and batteries for long winter nights and dust-prone zones.

Why did we choose heisolar for a street light project?

We chose HeiSolar for the first solar-powered street light project in the city of Coneto, Durango. That's quite an accomplishment for a remote city which lack of transmission lines. I really appreciate the help from the company. We could not have asked for better representatives at Heisolar!
