

Arc flash switchgear for sale in America

Overview

What is arc resistant switchgear?

Unlike conventional switchgear, arc-resistant switchgear is designed with reinforced compartments that can withstand incredible pressure increases during high-energy arc faults. Arc-resistant switchgear offers a safe, proven, and cost-effective solution to the problem of arc flash events. Why do I need Arc-Resistant Switchgear?

.

Who makes arc-resistant switchgear?

Crown Arc-Resistant Switchgear Crown Technical Systems is one of the few companies in the world that engineers and manufactures arc-resistant switchgear. Our original engineering team pioneered the widespread use of arc-resistant gear throughout Canada.

What is powersafe arc-resistant switchgear?

Spike Electric's PowerSafe Arc-Resistant Switchgear stands as a robust solution for managing high-voltage power in industrial settings. It incorporates advanced safety features, sturdy construction, and versatile design options to meet the stringent requirements of contemporary power management and safety regulations.

What is arc-resistant metal clad switchgear?

Spike Electric's Arc-Resistant Switchgear is a robust solution for managing high-voltage power in industrial settings. Spike Electric's PowerSafe Arc-Resistant Metal Clad Switchgear represents the forefront of switchgear technology.

Arc flash switchgear for sale in America

Arc-Resistant Switchgear

Available in a wide range of ANSI ratings and configurations, our switchgear features utility-grade, welded, metal-clad assembly for reliability, safety and long service life.
