

Arc flash switchgear for sale in Moldova

Overview

What arc flash mitigation solutions are available?

Improve safety with our extensive portfolio of arc flash mitigation solutions including arc quenching and arc-resistant switchgear, Power Xpert XGIS switchgear, Power Xpert Dashboard, Power Defense molded case circuit breaker, Insulgard, arc flash relays and more.

Who makes arc-resistant switchgear?

Crown Arc-Resistant Switchgear Crown Technical Systems is one of the few companies in the world that engineers and manufactures arc-resistant switchgear. Our original engineering team pioneered the widespread use of arc-resistant gear throughout Canada.

What is arc resistant switchgear?

Arc resistant refers to the equipment rating achieved by meeting the ANSI C37.20.7 Standard for arc resistant switchgear. ArcBlok is a Schneider Electric patented technology applied inside of PZ-4 switchgear which is designed to rapidly quench and transfer an internal arcing fault before it propagates inside the circuit breaker compartment.

What is a type 2 arc-resistant switchgear?

For low-voltage switchgear, this rating is also applicable to the secondary door. Type 2 arc-resistant ratings in accordance with IEEE standard C37.20.7 provide for arc-resistant protection around the perimeter of the switchgear with the doors closed.

Arc flash switchgear for sale in Moldova

[Arc flash protection devices \(medium-voltage\)](#)

The AQ 100 series of medium-voltage arc flash devices is built to meet the growing demands in MV switchgear and controlgear applications.
