

# Are there any 5G base stations jointly built by Yaounde Communications

## Overview

---

The marketing of non-5G services refers to the promotion of enhanced 4G networks that are presented as precursors or equivalents to 5G. Some mobile network operators marketed upgraded 4G technologies using terms that suggested 5G capability. These offerings, sometimes described by carriers as "pre-5G" or "5G-ready", used features, including 4x4 MIMO, to deliver higher data rates. However, they did not meet the criteria defined for 5G by the

How does 5G work?

5G networks divide coverage areas into smaller zones called cells, enabling devices to connect to local base stations via radio. Each station connects to the broader telephone network and the Internet through high-speed optical fiber or wireless backhaul.

What is the marketing of non-5G services?

The marketing of non-5G services refers to the promotion of enhanced 4G networks that are presented as precursors or equivalents to 5G. Some mobile network operators marketed upgraded 4G technologies using terms that suggested 5G capability.

Who makes 5G radio & core systems?

Major suppliers of 5G radio and core systems included Altiostar, Cisco Systems, Datang Telecom/Fiberhome, Ericsson, Huawei, Nokia, Qualcomm, Samsung, and ZTE. Huawei was estimated to hold about 70 percent of global 5G base stations by 2023.

When will 5G be available in the Philippines?

In June 2019, Globe Telecom introduced the Philippines' first next-generation network, and in December 2019, AT&T launched a consumer service in the United States that expanded nationwide during 2020. Commercial 5G deployment expanded rapidly through 2020.

## Are there any 5G base stations jointly built by Yaounde Communicati

### [Design consideration for 5G Base Station](#)

The 5G network design is a big challenge for both vendors and network operators. The quality of service and the quality of experience will have a big importance on 5G network.
