

Athens Mobile Energy Storage Container 100kW

Overview

What is a ten 100kW battery energy storage system?

The ATEN 100kW battery energy storage systems (BESS) contains the full battery system with battery management system and three phase power conversion system. Designed to seamlessly integrate with Solar, Wind, Grid, or Gensets, the ATEN 100kW is the building block to clean energy systems including On-Grid hybrid and Micro-Grid Systems.

How does the Aten 100kW PCs work?

The ATEN 100kW pairs seamlessly with a number of different energy sources. Typically Solar, Grid, and Diesel Gensets are paired together to make mini-grid applications. The 100kW PCS cabinet contains a Hybrid 100kW PCS with 250V~520V DC input voltage The battery rack is converted to 400~480V AC through the Hybrid PCS.

What types of energy storage systems are available?

Available in 128kWh, 192kWh, 256kWh and 384kWh sizes with 3 phase configurations, these BESS hybrid systems offer commercial, industrial, and farm customers turn key energy storage systems that are designed for 10+ years of hassle free energy storage use. The ATEN 100kW pairs seamlessly with a number of different energy sources.

How do I choose a Bess containerized battery energy storage system?

These containerized battery energy storage systems are widely used in commercial, industrial, and utility-scale applications. But one of the most important factors in choosing the right solution is understanding BESS container size — and how it impacts performance, cost, and scalability.
