AVID GROUP provide a whole range of SPS and Containerised Solar Energy Solutions. AVID's solar design, installation, commissioning and monitoring services are operated by our teams of skilled engineers and qualified electricians. AVID's experience, versatility, scope of services and collaborative.

Add Solar, Batteries, EV Chargers, and more to your Business or Commercial or Industrial Property. Find out more Discover the ultimate guide to off-grid solar system costs in Australia. Find the perfect system for your needs and budget, plus score exclusive savings! Updated on 14 November 2025 As.

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing.

At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions.

Since 1987, RPC has designed and delivered off-grid and hybrid solar projects across eight countries, powering resorts, schools, and remote communities. RPC has been pioneering solar since 1987. From off-grid independence to on-grid efficiency, we deliver solutions that put you in control of your.

We design and build shipping containers featuring integrated solar systems that

can be used to provide microgrid energy solutions. The solar array is mounted directly onto the container, and can provide both off-grid and grid-tied functionality, with all necessary equipment to ensure safe and.
