

Baku Industrial and Commercial Equipment Energy Storage Production

Overview

Does Baku have an industrial past?

In both strategies, Baku's industrial past and present have minimal representation. It is as if industrialization, which has been so central to the development of Baku as a city, is not seen as a part of the city's history.

How old is the oil industry in Baku?

In Baku, the oil industry is nearly 200 years old, and it is a part of the local landscape and everyday life, with industrial objects and toponymy punctuating the city and its suburbs. That is why a landscape approach would be much more appropriate.

How did the oil industry affect Baku?

The oil industry influenced the spatial organization of the city, including residential districts (Sovetski area, Razin settlement, Ermenikend) and transport links both in the peri-urban area and the region (Blau 2018, Crawford 2022). Baku's industrial history has some unique features.

What is Baku's industrial past?

Baku's industrial past is a part of this global story of industrialization, but it also has important and unique differences. Baku's role in the global history of oil in the 19th -early 20th century is well known. Along with Pennsylvania, Baku was one of the two pioneering sites of global oil production.
