

Bangkok Sea Freight Folding Container Wholesale

Overview

Docshipper can rely on numerous lanes to ensure low prices with the carriers. This is how we can remain well below market price, and to avoid market fluctuations.

How much does a shipping container cost in Bangkok?

We sell shipping containers in Bangkok ideal for storage. The cost is 49,000baht for a 20ft FCL (full container). If you wish us to paint the container then we can also quote you to do this. These containers are only ideal for storage but not for shipping overseas as they do not have a CSC plate.

What type of shipping container do you manage in Thailand?

As a leading sea freight agent in Thailand, we manage standard 20ft and 40ft containers (regular or High Cube). Depending on your shipment volume, choose a full container load (FCL) or share space through less-than-container load (LCL). FCL is ideal for businesses with enough goods to fill an entire shipping container from China.

Where is the cheapest FCL container shipping to Bangkok?

The port of BANGKOK is located along the Chao Phraya River in the Thai capital. It's very well-connected with road and rail systems, improving the efficiency of cargo transport between the port and its hinterland. These are examples of the cheapest rates for 20 foot FCL container shipping to Bangkok.

What size shipping container do I need to ship to Thailand?

When you are sending cargo to Thailand, you should know that standard shipping containers come in 20-foot and 40-foot sizes. You will have to choose between a full container load (FCL) or a less-than-container load (LCL, or groupage) for your shipment.
