

Beijing solar Energy Storage Wind Power Exhibition

Overview

From October 20 to 22, CWP2025 will be held at the China International Exhibition Center (Shunyi Pavilion) in Beijing. The exhibition will cover an area of 120,000 square meters and will fully display the latest wind power technologies, cutting-edge products and efficient.

From October 20 to 22, CWP2025 will be held at the China International Exhibition Center (Shunyi Pavilion) in Beijing. The exhibition will cover an area of 120,000 square meters and will fully display the latest wind power technologies, cutting-edge products and efficient.

From October 20 to 22, the 2025 New Energy Storage Conference & Exhibition (NES+) will be held concurrently with the CWP2025 in Beijing. The market for new energy storage technologies is experiencing sustained growth. In 2024, both the tendered and awarded capacities in China's energy storage.

The Beijing International Wind power Conference and Exhibition (CWP) is an annual event for the global wind power industry. In the past 18 years, CWP has not only witnessed the development of China's wind power industry from its infancy to the world's leading position, but also been a partner that.

The China Wind Power Exhibition 2025 (CWP25) is set to be a landmark event in the global renewable energy calendar, taking place in Beijing from October 17th to 19th, 2025. As one of the largest and most influential wind power exhibitions in the world, CWP25 will bring together industry leaders.

Join industry leaders at China Wind Power 2026 in Beijing from October 14-16, showcasing innovations and trends in the global wind energy sector. Since it was first held in 2008, China Wind Power has been working with colleagues in the wind power industry to grow together. With 18 years'.

The conference and exhibition (CHINA WIND POWER) is one of the three largest wind power exhibitions in the world and also the largest and most influential exhibition in the domestic wind power industry. We sincerely invite you to attend the conference and exhibition of China Wind Power 2024 to be.

China Wind Power (CWP) is a wind power related exhibition/event jointly offered by

five most influential renewable energy institutions, namely China Wind Energy Association, China Renewable Energy Industries Association , Global Wind Energy Council, China National Renewable Energy Centre, and China.
