

Bess battery storage in China in Egypt

Overview

Trina Storage, a subsidiary of global solar giant Trinasolar, announced on Tuesday the completion of a 300 MWh battery energy storage system (BESS) in Aswan Governorate, Egypt's first integrated solar and battery storage facility, according to a statement by the Chinese company.

Trina Storage, a subsidiary of global solar giant Trinasolar, announced on Tuesday the completion of a 300 MWh battery energy storage system (BESS) in Aswan Governorate, Egypt's first integrated solar and battery storage facility, according to a statement by the Chinese company.

The project will pioneer the use of a utility-scale battery energy storage system (BESS) in Egypt. Dubai-based AMEA Power is developing a 300 MWh BESS alongside its operating 500 MW Abydos PV power plant in Kom Ombo, Aswan Governorate. When first unveiled in September 2024, the project was.

Cairo, Egypt, June 15, 2025 – IFC today announced an investment to support Egypt's first utility-scale battery energy storage system (BESS), deepening its partnership with AMEA Power, a leading renewable energy developer in Africa, the Middle East, and Central Asia, and the Government of Egypt to.

Trina Storage, a subsidiary of global solar giant Trinasolar, announced on Tuesday the completion of a 300 MWh battery energy storage system (BESS) in Aswan Governorate, Egypt's first integrated solar and battery storage facility, according to a statement by the Chinese company shared with Ahram.

AMEA Power, a fast growing renewable energy company in the Middle East North Africa region, has announced the successful commissioning of Egypt's first-ever utility-scaled battery energy storage system. The 300 MWh facility, which is powered by solar energy, was delivered ahead of its scheduled.

The International Finance Corporation (IFC) announced on Sunday a landmark investment to support the development of Egypt's first utility-scale battery energy storage system (BESS), in partnership with AMEA Power and the Government of Egypt. The project aims to enhance grid resilience and support.

Dubai, United Arab Emirates, 15 July 2025 – AMEA Power, one of the fastest-

growing renewable energy companies in the region, is pleased to announce the successful commissioning of Egypt's first-ever utility-scaled Battery Energy Storage System (BESS). The 300 MWh facility, fully powered by solar PV.
