

Bridgetown Energy Storage Container Two-Way Charging Discount Offer

Overview

Are battery storage projects eligible for energy storage incentives?

The Program Manual [PDF] provides a full list of project eligibility and requirements. For battery storage systems above five MW of AC power, projects could be eligible for incentives through the Bulk Energy Storage Program. Additional details on both the Residential and Retail Energy Storage Incentive are available in the program manual [PDF].

How are incentives provided for residential and retail energy storage projects?

Incentives for all residential and retail storage projects are provided through a network of participating contractors approved under the Residential and Retail Energy Storage Incentive program who contract directly with the customer. The program breaks out incentives geographically by sector and region in the Megawatt hour (MWh) Block Dashboards.

Does PSEG Long Island offer a residential energy storage incentive?

The Program Manual [PDF] provides a full list of project eligibility and requirements. Contractors installing residential energy storage in PSEG Long Island are eligible to apply for the Long Island Single-Family Residential Storage Incentive which are governed through the NY-Sun Program Manual [PDF].

How does the energy storage incentive program work?

The program breaks out incentives geographically by sector and region in the Megawatt hour (MWh) Block Dashboards. Incentive details will be available on the Residential Energy Storage Incentive Dashboard and Retail Energy Storage Incentive Dashboard.
