

# Budapest Energy Storage Project

## Overview

---

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Százhalombatta, located close to Budapest. The new facility boasts a total power output of 40 MW and a storage capacity.

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Százhalombatta, located close to Budapest. The new facility boasts a total power output of 40 MW and a storage capacity.

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today. MET Group put into operation a battery electricity storage plant with a total nominal power output of 40 MW and a storage capacity of 80 MWh (2-hour cycle). It is the latest example in a series.

MET Group has switched on Hungary's largest battery, a 40 MW/80 MWh system, at the site of a power station near Budapest. Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in.

Hungary joins its neighbours in scaling up grid-scale battery storage, installing the country's largest BESS to date. The new facility supports a growing push to green Hungary's power grid. Met Group Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up.

Hungary has taken a significant step forward in its energy transition with the inauguration of its largest standalone battery energy storage system (BESS). Located near Budapest at the Dunamenti Power Station in Százhalombatta, the 40 MW / 80 MWh facility marks a crucial development in Hungary's.

Met Duna Energiatároló, a unit of the MET Group, an energy company based in Switzerland with Hungarian roots, has inaugurated a 40 MW / 80 MWh battery storage at the Dunamenti Power Plant in Százhalombatta (South of Budapest). Operation has started at the storage system. The investment is supported.

With a nominal output of 40 MW and a storage capacity of 80 MWh, the facility

marks the latest in a series of energy storage investments by MET Group across Europe. Situated at the Dunamenti Power Station in Százhalombatta, the new battery energy storage system builds on MET Group's earlier 4 MW /.
