

Budapest solar container system equipment manufacturer

Overview

Directory of companies in Hungary that are distributors and wholesalers of solar components, including which brands they carry.

Directory of companies in Hungary that are distributors and wholesalers of solar components, including which brands they carry.

Greensolar specializes in supplying solar panels for both utility-scale and residential-scale photovoltaic power plant projects. With a focus on unique equipment development and strong technical expertise, the company is dedicated to providing photovoltaic module distribution and turn-key solutions.

Solar & Solar Wholesale Group is one of the fastest growing distributor of PV modules, inverters, energy storage and electrical components in Central Europe. We operate in 5 markets, offering solar components only from the best brands. Our 4 logistics centers in Europe enable quick and affordable.

Greensolar Equipment Manufacturing Ltd. is active on the industrial fields of photovoltaics and having vast experience of renewable energies and related solutions. Our company was established in 2009. With a stable background we are currently interested in the field of developing photovoltaic power.

The company was founded in 2018, but our managers and staff have decade of professional experience. When the company was established, our main objective was to carry out construction works - from the design phase to the execution - in a focused process, using experienced human resources, advanced.

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container.

Hungarian wholesalers and distributors of solar panels, components and complete PV kits. 21 sellers based in Hungary are listed below. List of Hungarian solar sellers. Directory of companies in Hungary that are distributors and wholesalers of solar components, including which brands they carry. What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

Who is solarcont GmbH?

SolarCont GmbH was created through a cooperation between the two successful companies Hilber Solar GmbH from beautiful Tyrol and the company Gföllner Fahrzeugbau und Containertechnik GmbH, which is deeply rooted in Upper Austria. This cooperation makes it possible to develop a completely new type of mobile solar system.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.
