

Buenos Aires Sunshine Energy Storage Power Supply Distributor

Overview

How much money will Buenos Aires invest in a new storage system?

"This initiative, unprecedented in the country but already applied worldwide, seeks to add 500 MW of storage capacity in critical nodes of the Metropolitan Area of Buenos Aires (AMBA), with an estimated investment of US\$ 500 million and an execution period of between 12 and 18 months.

How much does Almagba storage cost in Buenos Aires?

The AlmaGBA Storage tender, for the metropolitan area of Buenos Aires (AMBA), will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month.

Why is the Argentine electricity system undergoing a paradigm shift?

After decades of disinvestment and decapitalization, the Argentine electricity system faces serious challenges in terms of infrastructure and response capacity. This tender for next-generation batteries (BESS) marks a paradigm shift, prioritizing private investment and technological innovation to solve structural problems.
