

# Bulgaria 3kw energy storage

## Overview

---

The European Union has approved Bulgaria's plan to support the construction of new energy storage facilities with a total capacity of at least 3 GWh. The project budget is €590 million, fully funded by the EU's Recovery and Resilience Facility (RRF).

The European Union has approved Bulgaria's plan to support the construction of new energy storage facilities with a total capacity of at least 3 GWh. The project budget is €590 million, fully funded by the EU's Recovery and Resilience Facility (RRF).

Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount. Bulgaria will finance 82 standalone renewable energy storage projects worth over 1.15 billion levs (\$675 million) under its.

Bulgaria's Ministry of Energy has approved €588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. The final decision, announced on April 17, 2025, concludes a competitive selection process that began with 151 proposals in August 2024.

European Union Approves Bulgaria's Plan for Energy Storage Development The European Union has approved Bulgaria's plan to support the construction of new energy storage facilities with a total capacity of at least 3 GWh. The project budget is €590 million, fully funded by the EU's Recovery and.

Bulgaria is taking bold steps toward a greener energy future, having recently wrapped up its most ambitious energy storage tender to date. With nearly 10 GWh of standalone energy storage capacity awarded—more than triple the initial target—the country is making significant headway in reinforcing.

profit from the experiences of other energy systems with high renewable shares. Here, battery-based energy storage is integrated as a reliable and cost-efficient solution that increases system flexibility and allows for integration of greater shares of low-cost renewables. Energy storage can also be.

Bulgaria's Ministry of Energy will finance 82 standalone renewable energy storage

projects with a combined grant budget of BGN 1.154 billion (~\$675 million) under the EU-backed RESTORE procurement scheme. The selected projects will deliver 9,712.89 MWh of usable energy storage capacity—more than.
