

China-Europe New Energy Storage

Overview

Solar and storage industry leaders from China and Europe gathered in Germany this week to advance cross-border partnerships, launch a bilateral storage collaboration platform, and coordinate strategies for scaling PV and battery deployment amid surging demand, grid.

Solar and storage industry leaders from China and Europe gathered in Germany this week to advance cross-border partnerships, launch a bilateral storage collaboration platform, and coordinate strategies for scaling PV and battery deployment amid surging demand, grid.

Solar and storage industry leaders from China and Europe gathered in Germany this week to advance cross-border partnerships, launch a bilateral storage collaboration platform, and coordinate strategies for scaling PV and battery deployment amid surging demand, grid pressures, and intensifying.

while European chefs perfect their sourdough starters and Chinese dim sum masters fold dumplings with surgical precision, there's another kind of recipe brewing between these two powerhouses - one that could literally power our future. The secret ingredient?

Energy storage technology. As of 2025.

Well, here's something you might've missed: Chinese energy storage companies have secured over 18.5 GWh of European contracts in Q1 2025 alone [3] [8]. From Britain's 4.4 GWh Thorpe Marsh project powered by Sungrow's liquid-cooled systems [4] to BYD's 1.6 GWh deal in Poland [9], these partnerships.
