

Container generator production plant

Overview

At MODS, we design and fabricate high-performance generator and power units built from shipping containers. Our solutions provide reliable energy generation and storage for industries, construction sites, events, and remote operations.

At MODS, we design and fabricate high-performance generator and power units built from shipping containers. Our solutions provide reliable energy generation and storage for industries, construction sites, events, and remote operations.

At the beginning of the Tier 4 transition, our engineering team had the opportunity to work with different customers in different markets to design and develop a line of high-power Tier 4 Final containerized generators. Years of use in the rental, oil and gas, mining and other heavy-duty industries.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, our genset containers offer optimal performance in various site conditions. By maintaining.

Since its introduction in 2022, Centum™ has been the pillar of innovation for Cummins Power Generation. We're excited to expand this pillar with the addition of Centum™ Force, the next generation of containerized generator sets that establish new benchmarks in footprint optimization, layout.

Containerized generator / Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear. Unified.

Compact modules for the TCG 3016, TCG 3020 and TCG 2020 gas engines. Complete turnkey systems for special applications. Complete turnkey systems - planning, configuration, installation, service - all from one source. 270 containers with 245 MW el have already been installed worldwide. Complete MWM.

At MODS, we design and fabricate high-performance generator and power units built from shipping containers. Our solutions provide reliable energy generation and storage for industries, construction sites, events, and remote operations.

Whether you need a container generator unit, a fully integrated.

Container generator production plant

Container Generator Units

We design and build container generator units, shipping container power units, and modular generator housing that meet the highest standards of safety and performance.

Container Generators

Our GEN-C generators are powered by world renowned engines ranging from Perkins to Cummins, ensuring top-class operation as well as maximise fuel efficiency at all times

[Request Quote](#)

Containerized Generator

With our genset containers offer optimal performance in various site conditions. By maintaining high-quality standards for both the engine and the complete containerized power plant ...

[Request Quote](#)

Containerized Generators

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of value-added standard features, ...

[Request Quote](#)

[containerized generator set for power plants](#)

Discover high-performance containerized generator sets featuring rapid deployment, environmental protection, and advanced control systems for reliable power generation in any ...
