

Containerized generator equipment model

Overview

The Containerized Series generator sets are designed for harsh weather and strict acoustical standards, utilizing a standard 40' high cube container equipped with an array of innovative features, allowing the system to operate reliably even in the hottest environments - validated at.

The Containerized Series generator sets are designed for harsh weather and strict acoustical standards, utilizing a standard 40' high cube container equipped with an array of innovative features, allowing the system to operate reliably even in the hottest environments - validated at.

Factory pre-integrated and customizable per site requirements, the new Cummins Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ownership via a flexible design. Developed in-house based on our legacy of technological innovations.

Centum™ Force, a Cummins Power Generation containerized generator sets range, provide significantly shortened installation and commissioning time. The stackable design allows for a smaller footprint and offers a lower cost of ownership. This revolutionary 50Hz product was developed in-house based.

Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user. That's why we intentionally made these units easily configurable to the needs of any application, from rental to disaster relief to mining — with a whole.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, our genset containers offer optimal performance in various site conditions. By maintaining.

With the optional Qc4003™ controller, two or more QEC units can be put into parallel. It is a flexible power solution for loads that exceed the output capability of a single generator set. This type of power management system PREDICTABLE POWER The Atlas Copco QEC generators packs a punch, up to 1.

Look to MQ Power to provide the highest performing, technologically superior

generators on the market to keep you on track day and night MQ Power's containerized generators are available in 500, 750, 1,000, 1,500 and 2,000kW packages and in two sizes — the standard 40-foot container and our new.
