

Does the outdoor fiber optic repeater base station have a battery

Overview

It comes with the WisMesh Repeater base station, RAK9154 high capacity outdoor IP67 5200 mAh battery pack, and a 10.5 x 10.5 inch Mono-Crystalline Silicon solar panel. Mounting hardware and connection cables are included.

It comes with the WisMesh Repeater base station, RAK9154 high capacity outdoor IP67 5200 mAh battery pack, and a 10.5 x 10.5 inch Mono-Crystalline Silicon solar panel. Mounting hardware and connection cables are included.

WisMesh Repeater is a ready-to-use Meshtastic-compatible solar repeater system designed to extend the range of the Meshtastic LoRa® Mesh network. Choose antenna configuration: includes 2.5 dBi whip antenna, or (optional) add 5 dBi fiberglass N-male antenna with RP-SMA conversion piece. It comes.

Built on a Rak Wireless Meshtastic kit, we have in house designed a small Meshtastic Base station/repeater that is suitable to be left out in nature for long periods of time! With the optional solar panel, it be left unattended indefinitely! The base station is designed to compliment/augment.

TP-LINK's 2.4GHz 300Mbps Outdoor Wireless Base Station is specifically designed to provide an effective solution for outdoor wireless networking applications. With its centralized management platform and high degree of flexibility, it is the ideal choice for providing point-to-point.
