

# Dominican solar Power Station Energy Storage

## Overview

---

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS).

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS).

During the “Energy Sector Reform” Forum organized by the Dominican Association of the Electric Industry (ADIE) and the Technological Institute of Santo Domingo (INTEC), Edward Veras, executive director of the National Energy Commission (CNE), emphasized the Dominican Republic’s progress in energy.

The Dominican Republic is taking significant strides in its energy transition, with a strong emphasis on renewable energy and energy storage. This focus is central to the latest Dominican Republic energy news as the nation pursues a more sustainable future. Guided by an ambitious goal to reach 300.

The national energy commission (CNE) of the Dominican Republic this week granted a definitive concession for a 83.4-MW/101.6-MWp solar project with storage, while the nation’s Vice President, Raquel Pena, led the inauguration of a 58.48-MW/64.70-MWp solar farm. The CNE on Monday granted its seal of.

The project aims to provide technical assistance to the MEM to enhance the integration of energy storage systems into renewable energy applications in rural electrifications, particularly solar photovoltaics. Through technical studies and pilot projects, the project addresses critical barriers.

Spanish renewables developer Ecoener has received a definitive concession from the Dominican Republic Government to build a 60MWp solar PV project in the country. Located in the northern municipality of Nagua, the Payita 2 solar park will be paired with a 4-hour duration 15MW/60MWh battery energy.

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisión Nacional De Energia (CNE) of the Dominican Republic

announced the start of work on the Dominicana Azul solar project.
