

Drum-type solar panel manufacturers

Overview

A current list of U.S. solar panel manufacturers that produce solar panels for the traditional American residential, commercial and utility-scale markets.

A current list of U.S. solar panel manufacturers that produce solar panels for the traditional American residential, commercial and utility-scale markets.

This is a current grouping of solar manufacturers in the United States that produce solar panels and their associated materials for the traditional residential, commercial and utility-scale markets. This data is collected by Solar Power World editors and will be continually updated as facilities.

Thomas has been North America's number one industrial sourcing platform for more than 125 years. On Thomasnet, you'll find more than 580 suppliers of solar panels in the USA. You can filter these companies by location, certifications, and more factors to easily find and connect with the right.

On the other hand, the domestic manufacturing capacity for solar panels in the USA has expanded with a list of top manufacturers such as First Solar, Qcells, Silfab Solar, Jinko Solar, and Mission Solar. As a result, the solar industry in America employed more than 263,883 workers, approximately.

We've rated thousands of solar panels made by dozens of manufacturers based on efficiency, power output, warranty, and other important specs that allow each panel to make the most possible electricity over the longest period. Some of these American-made panels (and the inverters they connect to).

The current top five USA solar panel manufacturers by peak manufacturing capacity are: American-made solar panels may not always come from American companies, but they are built by American workers. Here's more information about five of the biggest, best companies that make solar panels in the USA.

In 2025, the industry is more robust than ever, with American-made solar solutions gaining prominence not only domestically but also on the global stage. Here is a comprehensive look at the top 20 solar power system manufacturers in the USA. These companies are setting benchmarks for innovation.
