

Dubai 600mwh energy storage power station

Overview

The solar park was announced by in January 2012. The first phase of the park was a 13 MWp (DEWA 13) constructed by . It was commissioned on 22 October 2013. It uses 152,880 FS-385 black and generates about 28 per year which corresponds to a of 24.6%. The second phase is a 200 MWp plant built at a cost of US\$320 million by a consorti.
