

East African double-glass solar module manufacturer

Overview

RiiSun Solar Energy Experts provide complete supply & professional installation nationwide, including custom design, quality mounting systems, and after-sales support – making them the smart choice for both grid-tied and off-grid solar projects in Kenya.

RiiSun Solar Energy Experts provide complete supply & professional installation nationwide, including custom design, quality mounting systems, and after-sales support – making them the smart choice for both grid-tied and off-grid solar projects in Kenya.

Maximize your energy production with Jinko's advanced 600W–635W Double Glass N-Type Bifacial Solar Panels, delivering ultra-high efficiency (21.5–22.5%) and dual-sided power generation for homes, businesses, farms, and industrial sites across Kenya. These cutting-edge panels feature N-Type cell.

Africa's premier solar mounting innovator with 210MW installed across 17 projects. GS-Light trackers deliver 27% more yield than fixed structures in high-irradiation zones. Partnering with EPC specialists on landmark projects including Sokoto Solar Farm (80MW) - Africa's largest tracker deployment.

Bifacial photovoltaic modules are available in two types: single-glass bifacial modules and double-glass bifacial modules. Single-glass bifacial modules are lightweight and suitable for rooftop installations, while double-glass bifacial modules provide greater resistance to weather conditions.

Solaris Industry is a subsidiary of CEVITAL group, specialized in ultra-clear glass production, solar glass processing, and photovoltaic modules assembling. Our company was born from the desire to support the energy transition in our country and around the world. With a production site located.

Founded in 2010 and based in Durban, ARTsolar is South Africa's only locally owned solar panel manufacturer. The company produces high-quality photovoltaic (PV) modules and has a production capacity of up to 250 MW per year. ARTsolar's panels are internationally and locally certified, catering to.

ARTsolar is one of the only remaining fully South African-owned manufacturers.

Their modules are well-known for local reliability and compliance with South African grid requirements. ARTsolar specializes in: 2. Seraphim South Africa Operating in the Eastern Cape, Seraphim manufactures.
