

# East Timor Power Plant Energy Storage Project

## Overview

---

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy.

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy.

Global law firm DLA Piper, as part of an advisory team led by the Asian Development Bank (ADB) has advised Eletricidade de Timor-Leste (EDTL) on a power purchase agreement with a consortium comprised of Électricité de France and Itochu for the development of Timor-Leste's first utility-scale solar.

East Timor is embarking on a major clean energy milestone with the construction of its first large-scale solar power plant in 2026. The 72 MW project in Manatuto, developed jointly by Japan's Itochu Corp and France's EDF, will also feature a 36 MW battery energy storage system to ensure stable and.

ITOCHU Corporation (headquartered in Minato-ku, Tokyo; President & COO: Keita Ishii; hereinafter "ITOCHU") is pleased to announce that, together with EDF power solutions ("EDF ps"), a subsidiary of the EDF Group (Électricité de France), it has signed a Power Purchase Agreement ("PPA") with.

Will Timor-Leste's first solar power project integrate with a battery energy storage system?

In a landmark moment for Timor-Leste's energy future, a Power Purchase Agreement (PPA) has been officially signed for the country's first-ever solar power project integrated with a Battery Energy Storage.

DLA Piper advised Eletricidade de Timor-Leste on power purchase agreement for first solar and battery storage project Global law firm DLA Piper advised Eletricidade de Timor-Leste (EDTL), as part of an advisory team led by the Asian Development Bank (ADB), on a power purchase agreement with a.

East Timor, officially known as Timor-Leste, is poised to make a significant leap in renewable energy with confirmed plans to construct a 200 MW solar power plant. This ambitious project, set to begin construction in 2026, will not only supply clean energy to neighboring Indonesia but also marks a.
