

# Energy storage equipment design in Gothenburg Sweden

## Overview

---

How is Gothenburg shaping the new battery industry?

In Gothenburg we are shaping the new battery industry. In the coming years Gothenburg and West Sweden will have in place two battery gigafactories, with major investments being made by public and private actors, including Volvo Cars and the Volvo Group. The region is set to become an important hub for both battery development and production.

How is Gothenburg reskilling the battery industry?

Reskilling and upskilling initiatives for the region's new battery industry are also underway. Among them is a unique education and training centre which has opened in Gothenburg, specifically for the battery value chain. Around 7,000 people will be trained in state-of-the-art facilities between 2024 and 2029.

Why is Gothenburg a hub for R&D?

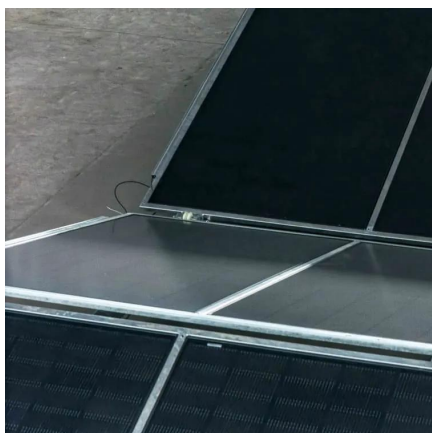

As a hub for R&D, Gothenburg offers excellent possibilities for testing and many platforms for collaboration. For example, the largest of three facilities for SEEL Swedish Electric Transport Laboratory, Sweden's testbed for electromobility, is located in Gothenburg.

Is Gothenburg paving the way to an emission-free mobility system?

Gothenburg Green City Zone is another testbed paving the way towards an emission-free mobility system. Businesses, academia and public actors are testing new innovative solutions within a number of zones within the city that can be quickly scaled up. Wireless charging of electric taxis is one of the test and development projects underway.

## Energy storage equipment design in Gothenburg Sweden

### Swedish New Energy Storage Technology: Powering the Future ...

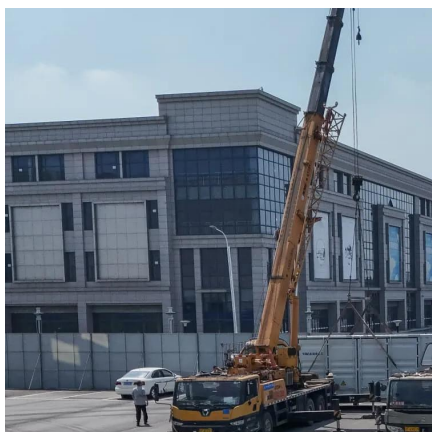

As the world races toward decarbonization, Sweden's new energy storage technology is turning heads globally, blending Nordic pragmatism with breakthroughs that ...
