

# Estonia 2025 Energy Storage Site

## Overview

---

Estonia is launching a major 300 MW solar-plus-storage project in Ida-Viru County, transforming a former quarry to boost renewable energy and energy independence.

Estonia is launching a major 300 MW solar-plus-storage project in Ida-Viru County, transforming a former quarry to boost renewable energy and energy independence.

The launch of the Auvere battery storage facility marks a turning point in Estonia's energy landscape. With a capacity of 53 megawatt-hours—enough to cover just 2–3% of Estonia's average hourly electricity consumption—this pilot project may seem modest in scale. Yet its impact on the stability.

shaking off their reliance on the Russian grid. Planned battery storage park of 200 MW and 400 MWh of storage ca city equivalent to 90 000 households" official permit and construction can go ahead. Developed b achieve its 100% renewable energy goal by 2030. With this cooperation, Zero Terrain is.

Estonia is taking a significant step toward a sustainable future with the approval of a major solar-plus-storage project at the site of a former oil shale quarry in northwestern Ida-Viru County. This ambitious initiative, a collaboration between Baltic Green Energy and energy company Stora Enso.

Recently, Trina Solar and Sunly, Estonia's leading energy company, officially signed a battery energy storage system contract for the Raba Solar Power Station. According to the agreement, Trina Storage, a subsidiary of Trina Solar, will provide a 21MW/42MWh energy storage system for the project.
