

# European Solar Power System

## Overview

---

- is a member-led association representing organisations active along the whole value chain that aim's to ensure that more energy is generated by solar than any other energy source by 2030 and to lead their members to make solar the core of a smart, sustainable, secure and inclusive energy system to reach before 2050.
- The is an industry association that represents European.

## European Solar Power System

---

### Solar energy

Under the European Green Deal and the REPowerEU plan, solar power is a building block of the EU's transition to cleaner energy. Its accelerated deployment contributes to reducing the EU's ...
