

# Financing of 1MWh Smart Photovoltaic Energy Storage Container for Port Use

## Overview

---

As part of the Biden-Harris Administration's Investing in America agenda, the U.S. Department of Energy (DOE) Loan Programs Office (LPO) today announced the closing of a \$289.7 million loan guarantee to Sunwealth Holdco 18 LLC's (Sunwealth) Project Polo.

As part of the Biden-Harris Administration's Investing in America agenda, the U.S. Department of Energy (DOE) Loan Programs Office (LPO) today announced the closing of a \$289.7 million loan guarantee to Sunwealth Holdco 18 LLC's (Sunwealth) Project Polo.

Project Polo will deploy commercial-scale PV and storage to create integrated virtual power plants across 27 states. As part of the Biden-Harris Administration's Investing in America agenda, the U.S. Department of Energy (DOE) Loan Programs Office (LPO) today announced the closing of a \$289.7.

William Homza is a Solutions Engineer for Enel North America's Distributed Energy Solutions team. Over his career, Willy has established an extensive background working on behind the meter load flexibility products across residential, commercial, and industrial sectors. At Enel, he currently.

LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar.

Financing options for solar energy storage systems include cash purchases, solar loans, leases, power purchase agreements (PPAs), and government incentives. Cash purchases allow for full ownership and immediate savings on energy costs, while solar loans enable consumers to finance the system over.

The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO<sub>4</sub> battery pack, a lithium solar charge controller, and an inverter for the voltage requested. Price for 1MWH Storage Bank is \$774,800 each plus freight shipping from China. To discuss.

U.S. energy storage capacity will need to scale rapidly over the next two decades

to achieve the Biden-Harris Administration's goal of achieving a net-zero economy by 2050. DOE's recently published Long Duration Energy Storage (LDES) Liftoff Report These figures are in addition to the nation's.
