

Fixed type folding container for aquaculture

Overview

Collapsible tanks are a reliable and space-conscious option for fish and shrimp farming. They store flat, set up easily, and give you top-down access to manage feeding, treatments, and system checks.

Collapsible tanks are a reliable and space-conscious option for fish and shrimp farming. They store flat, set up easily, and give you top-down access to manage feeding, treatments, and system checks.

Fish farming tanks are often used for growing and rearing tilapia, shrimp, catfish and other types of fish. Our collapsible water storage tanks consist of a rigid outer frame with a flexible, heavy duty inner liner inside. The outer steel frame houses the liner, which is made from a variety of.

Our collapsible water storage tanks offer you the spacious, easy to set up fish farming solution you need. Made with a rigid outer frame and a flexible inner liner, the collapsible water storage tanks are easy to set up and deploy and can be custom built to meet your needs. Find out more about.

Ideal for Aquaculture □ The canvas pool (circular, 1 m high, 3 m wide) With a capacity of approximately 7,065 liters, it provides ample space for fish or shrimp farming, while the waterproof canvas ensures no leakage. Temporary Water Storage □ The Portable Fish Tank can be used for agricultural.

Ideal for land-based fish and shrimp farming, Flexible Fish Farming Tanks are easy to set up—just connect, fill, and start farming. Made from heavy-duty materials, these collapsible tanks are lightweight yet strong. A 10m³ tank folds into a compact 0.33m³ package, making transport and storage.

Our collapsible aquaculture tanks are built to make aquaculture easier, more efficient, and adaptable to your setup. Designed with an open-top frame, these tanks provide direct access for feeding, health checks, and water management. Each unit includes a reinforced steel or aluminum outer structure.
