

Free Consultation on 80kWh Solar Container Container in Eastern Europe

Overview

How many PV modules are in a solar container?

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability. at full power.

What is a solarfold photovoltaic container?

at full power. The solarfold Photovoltaic Container is mobile for universal deployment with a light and versatile substructure. The semi-automatic electric drive unit manoeuvres the mobile photovoltaic system into its operating position rapidly and smoothly along a length of around 123 metres.

What is the solarfold container monitoring app?

The free monitoring app is part of your package and enables you to monitor the solarfold Container at any time, and from anywhere. The comprehensive functionality of the app supplies data about yield, energy flow and the amount of electricity currently being fed into the grid - and all in real-time.
