The Georgia Homegrown Solar Act is a bright opportunity to lower bills with clean, homegrown energy. Not every Georgian can access the cost-saving benefits of solar energy. As bills and temperatures climb, community solar is an opportunity for Georgians to save money with resilient, clean solar.

Following years of pushback from a utility that was “adamantly opposed” to community solar, Georgia Power agreed to work “in good faith” to enable a path forward for community solar and Solar for All. A rooftop solar installation in Hiram, Georgia. Image: Deidra Hodges Georgia Power agreed to.
