

# Georgia Integrated Energy Storage Equipment Company

## Overview

---

Does Georgia Power have a new battery energy storage system?

ATLANTA, Aug. 29, 2024 / PRNewswire / -- Georgia Power has identified locations for 500 MW of new battery energy storage systems (BESS) authorized by the Georgia Public Service Commission (PSC) earlier this year as part of the company's 2023 Integrated Resource Plan (IRP) Update.

What type of energy does Georgia Power use?

Committed to delivering clean, safe, reliable and affordable energy, Georgia Power maintains a diverse, innovative generation mix that includes nuclear, coal and natural gas, as well as renewables such as solar, hydroelectric and wind.

Does Georgia Power have a Bess project?

Georgia Power continues to work with the Georgia PSC to procure and develop BESS projects across Georgia. In addition to the Mossy Branch facility, Georgia Power is developing the 265 MW McGrau Ford Phase I BESS project in Cherokee County. This project was approved in the 2022 IRP, and Georgia Power expects it to enter service by the end of 2026.

What is battery energy storage?

“Battery energy storage is an example of a new technology that will make our grid more reliable and resilient every day, and especially during extreme weather events.
