

Global PV Inverter Database

Overview

A global solar inverter directory with advanced filters that lets you review and compare inverters. Pictures, data sheets, PDFs and certifications are shown.

How big is the global PV inverter market?

The global PV inverter market was valued at USD 34.6 billion in 2024 and is estimated to grow at a CAGR of 9.5% from 2025 to 2034. The paradigm shift toward the integration of renewable energy resources will fuel the adoption of efficient systems.

Why is the global solar (PV) inverter market expanding?

The global solar (PV) inverter market is expanding due to rapid expansion of the renewable energy sector. The growing demand and need for green and clean energy are driving the growth and development of global solar (PV) inverter market over the projected period.

What was the market size of PV inverter in 2024?

The market size for PV inverter was valued at USD 34.6 billion in 2024 and is projected to reach USD 90 billion by 2034, growing at a CAGR of 9.5% during the forecast period. What was the market share of the three-phase segment in 2024?

.

What drives the demand for solar (PV) inverter in the global market?

As a result, all these factors are driving the demand for solar (PV) inverter in the global market. The most significant driver of the solar inverter market is the global push towards renewable energy sources to combat climate change and reduce dependence on fossil fuels.
