

# Government Procurement of 150-foot Photovoltaic Containers for Airports

## Overview

---

This document establishes FAA policy for proposals by sponsors of federally-obligated airports to construct solar energy systems on airport property.

This document establishes FAA policy for proposals by sponsors of federally-obligated airports to construct solar energy systems on airport property.

Procurement Specifications Templates for On-Site Solar Photovoltaic: For Use in Developing Federal Solicitations [PDF] Considerations for Implementing PV Plus Storage Systems at Federal Buildings and Campuses – Recent declines in lithium-ion battery costs, along with changes in net metering.

The Federal Aviation Administration (FAA) published a final policy aimed at ensuring that airport solar projects don't create hazardous glare. The policy requires airports to measure the visual impact of such projects on pilots and air traffic control personnel. The policy applies to proposed solar.

In November 2023, the Maryland Aviation Administration (MAA) prepared a Solar Siting and Feasibility Study (the Study) that outlined a solar energy generation roadmap to maximize the generation of clean energy at Martin State Airport (MTN or the Airport). The State of Maryland's drive to combat the.

This document establishes FAA policy for proposals by sponsors of federally-obligated airports to construct solar energy systems on airport property. FAA is publishing this policy because it is in the public interest to enhance safety by analyzing ocular impact of proposed solar energy systems on.
