

High-efficiency folding container for chemical plants North Asia type

Overview

By reducing weight and height through material improvements and design enhancements compared to standard steel IBCs, FOLDPAC achieves lightweight, high-strength, and high-efficiency characteristics, resulting in a 125% improvement in container loading efficiency.

By reducing weight and height through material improvements and design enhancements compared to standard steel IBCs, FOLDPAC achieves lightweight, high-strength, and high-efficiency characteristics, resulting in a 125% improvement in container loading efficiency.

The "Patacon N-190" is a large folding container that is ideal for lightweight construction and high-capacity storage. With a calculated simple structure, it enables speedy assembly and folding that can be completed in about 3 seconds. The folding height can be reduced to about 1/6, saving storage.

FOLDPAC, the folding IBC (Intermediate Bulk Container) optimized for container loading, contributes to the efficiency of global export and import transportation. FOLDPAC is a reusable folding steel Intermediate Bulk Container (IBC). It is a logistics device designed to efficiently transport and.

These containers are constructed with high-quality materials that ensure safety and compliance with safety standards, making them an ideal choice for businesses looking to enhance their supply chain operations. Goodpack designs innovative bulk packaging solutions tailored to meet the unique demands.

The clever space-saving containers not only make your processes more efficient, but also more sustainable. If you want to make flexible transportation such as store deliveries cost-efficient, you need folding and collapsible boxes from SSI SCHAEFER Plastics. The sturdy Euro-sized containers reduce.

A folding container is a resin-made box that can be compactly folded when not in use. Folding reduces the size to about 1/3 to 1/4, so can be stored compactly during storage and transportation. In addition, containers can be folded and assembled easily and quickly, and can be stacked in both folded.

ZN House's latest development, the folding storage container, features a foldable

design, offering high cost-effectiveness, low space occupancy, convenient installation, good quality, easy loading and unloading, excellent mobility, and long lifespan, among a series of user-friendly designs. ZN.
