Q) What is an inverter system and what does it do?

It is an inverter unit coupled with a battery which provides power when there is load shedding. It keeps its battery charged when there is Eskom power. As soon as Eskom power cuts, the system instantly transfers over to battery power so you can.

The SH series is the ultimate sine wave inverter for houses, offices, security, factories and recreational use. These units can be used for anything within its specifications. Pure sine wave output makes this unit a must have for equipment where power outages range from 2 - 12 hours. ©2025.
