Siemens GFCI circuit breakers are UL Listed and cUL Certified to provide Class A GFCI protection. Current imbalances of 4-6 mA or more between load conductors will cause the ground fault sensor to trip the circuit breaker. These circuit breakers offer Self-Test and Lockout features as required by.

Eaton's BR circuit breakers are used in indoor and outdoor BR loadcenters, spa panels, meter breakers and sub panels. They are designed for a wide range of applications such as high short-circuit interrupt, series rating combinations with upstream main breakers, thermal magnetic, AFCI, GFCI.

Homeline miniature circuit breakers are engineered and designed for fast installation and superior circuit protection. Homeline circuit breakers are designed to plug into Homeline load centers to provide circuit protection. This circuit breaker provides standard circuit protection and is HACR.

The QO220GFI is a high-quality Square D 2-Pole 20 Amp breaker for 120/240V applications, featuring a push-in design for easy installation. This GFCI breaker offers 5mA ground fault protection, ensuring safety for your electrical systems. Ideal for hot tub applications, it combines reliability with.
